The South Central Service Cooperative (SCSC) health insurance pool programs and services are member owned and managed. Participants in our pools manage their own health insurance plans for the benefit of their participating members.

SCSC collaborates with seven other service cooperatives in an organization called the Minnesota Healthcare Consortium (MHC) which is dedicated to providing state-wide economies of scale when negotiating the purchase of health insurance services.

Periodically, SCSC and MHC conduct best-in-class services review of different insurance company programs and select the programs that best meet the needs of the pool membership.

SCSC and the MHC currently manage health insurance pool programs for more than 350 public sector employers throughout Minnesota. The current membership totals more than 55,000 people.

Why Participate in a SCSC Insurance Pool?

South Central Service Cooperative’s pooled program services feature:

- Reduced administrative charges
- Access to a wide range of health care providers; including Mayo Clinic
- Professional health support and self-care education
- Wellness reimbursement program
- Virtual care alternatives
- Member healthcare savings account services

Health plan management services include:

- Group coordinators to help conduct open enrollment meetings, presentations and individual consultations.
- Annual renewal review with the guidance of internal insurance and underwriting expertise.
- Health insurance pool members receive free employment law seminars (COBRA, HIPAA, insurance law, pharmacy updates and trends, etc.).
- Groups can access health promotion (wellness) program development and interactive client reporting.
- Groups can access consumer account administration at below market rates for FSA, VEBA and HSA.
- Groups can access an employee assistance program.
