Future Ready CTE Spotlight: St. Peter High School

St. Peter High School was awarded a Future Ready CTE Grant in the amount of $44,830

PURPOSE:
- Students will be able to explore Career Pathways in Business Management and Engineering, Manufacturing & Technology.
- Students will be challenged with product research, design, and marketing for components requested by customers partnering with Saints Manufacturing and APT Machining.
- A Haas Mini Mill CC Vertical Machining Center was purchased and was implemented into classes during the 2020–21 school year.
